

Sprint 3 Report

Actions to Stop Doing:

- Stop pushing code with warning and code that doesn't build.

Actions to Start Doing:

- Start working more on the project.
- Start testing code thoroughly.
- Start cleaning up warnings and commented out code
- Start adding documentation comments

Actions to Keep Doing:

- Keep communicating with each other.

Work Completed/Not Completed:

Completed:

- Story 1: As a user, I want more block types, such as conditionals, loops, and post data, so that I can create more complicated scripts.
- Story 4: As a user, I want to be able to export generated code so that I can use the web scraper I've created elsewhere.
- Story 5: As a user, I want a nice UI so that I can perform code generation.

Not Completed:

- Story 2: As a user, I want there to be the ability to save and load the scripts so that I can continue working on them later.
- Story 3: As a developer, I want to continue creating unit tests for the new blocks so that I can be confident with my code.

Work Completion Rate:

- Stories Completed: 3 user stories completed out of 5
- Total estimated number of ideal work hours completed during the prior sprint: 17 hours completed out of 21 hours
- Total number of days during the prior sprint: 11 days
- User Stories/day: 0.27
- Ideal work hours/day: 1.9

End burn up chart:
