

## Sprint 2 Report

### Actions to Stop Doing:

- Being late to the daily scrum
- Demoing during the daily scrum

### Actions to Start Doing:

- Meeting to in person to code and get caught up
- Work more hours

### Continue:

- Production daily scrum meetings

### Work Completed/Not Completed:

#### Completed:

- Story 1: As a user, I want to have basic block types to perform simple actions like downloading and parsing web pages so that I can easily create web scrapers.

#### Incomplete, mostly done:

- Story 3: As a user, I want an easy to use UI so that I can access the features in a simple, easy to use manner.

#### Not Completed:

- Story 2: As a user, I want to be able to export generated code so that I can use the web scraper I've created elsewhere.
- Story 4: As a developer, I want to create tests for the block types so that I can ensure the proper functionality is there.

### Work Completion Rate:

- Stories Completed: 1 User Story Completed out of 4
- Total estimated number of ideal work hours completed during the prior sprint: 14 hours out of 22
- Total number of days during the prior sprint: 10 days
- User Stories/Day = 0.1
- Ideal Work Hours/Day = 1.4
