Product Name: Dunes
Team Name: Dudes
Sprint Completion Date: 12/3/17

Story 1: As a user, I would like an easy to install package
- Task 1: Build standalone .exe, .app (3hr)
- Task 2: Package node.js (3hr)
- Task 3: Run script with node.js when a button is clicked (1hr)

Story 2: As a user, I would like to be able to drag blocks and for there to be an indicator
- Task 1: Fix dragging/dropping (2hr)
- Task 2: Add an indicator for where the block gets dropped

Story 3: As a backend developer, I would like to recreate old web scrapers in final product if possible
- Task 1: Rewrite MALSequels with Dunes (1hr)
- Task 2:Rewrite NBAStats with Dunes (1hr)
    - Task 2.5: Potentially add variable blocks (2hr)

Story 4: As a user, I want there to be the ability to save and load the scripts so that I can continue working on them later
- Task 1: Saving (3h)
- Task 2: Loading (3h)

Story 5: As a user, I want the ability to delete blocks
- Task 1: Delete blocks (2hr)
