Sprint 1 Report

Actions to Stop Doing:
- Stop being late to scrum meetings, so that we can start on time.
- Stop discussing design plans in meetings, so that we can keep them short.

Actions to Start Doing:
- Start discussing design plans/implementation details online/outside of scrum meetings, so that we can work effectively.
- Start working more hours every week, so that we can get more done.

Actions to Keep Doing:
- Keep meeting during scrum meetings, as it helps us stay on track.
- Keep discussing UI/language design as it fleshes out our design.

Work Completed/Not Completed:

    Completed:
- As a developer, I want to do research on how to build the UI/recreate old web scrapers as block diagrams so that we can decide how to build the UI and to outline the functionality.
- As a user, I want a language so that I can create web scrapers in it

    Not Completed:
- As a UI developer, I want to have an initial version of the UI so that we can have the basic placement and connection of blocks in place.

Work Completion Rate:
- Stories Completed: 2 User Stories completed out of 3
- Total number of estimated ideal work hours completed during the prior sprint: 10 hours completed out of 18 hours
- Total number of days during the prior sprint: 10 Days
- User Stories/Day = 0.2
- Ideal Work Hours/Day = 1

End Burn Up Chart:
